

# AXA's Driving Licence Checking Service

## Why use Safe2Drive Solutions?

Safe2Drive provides driving licence checking services and grey fleet support for businesses, including instantly checking their drivers' and vehicle records against the DVLA database (plus an additional service is available for drivers in Northern Ireland and overseas). These driving licence checks are undertaken on a recurrent basis to ensure businesses remain compliant and reduce their drivers' road risk.

**AXA's customers are offered a special discounted rate for Safe2Drive's services.**

# Services supplied by Safe2Drive

## Driving licence checking

Access to the driver's full driving licence, including current status, entitlement to drive, validity dates, plus past and current endorsements and points.

## Road Risk Analysis

Safe2Drive uses a Road Risk Analysis to segment drivers into four risk profiles, determined by the number of points on their licence records: low, medium, high-risk and drivers without a valid licence. Drivers are checked at different frequencies based on their risk and job role.

## Instant, secure and encrypted access

The companies employees driving licence records can be accessed/viewed instantly on Safe2Drive's encrypted web based portal and data can be transferred to the Safe2Drive team from the client via an internal secure file/data transfer mechanism.

## Mobile Access

The Mobile App "Driving for Work" (Licence Checks and Grey Fleet Checks) allows drivers to view and manage their own driving licence and vehicle status, saving their employer administration time, thus ensuring a cost efficient proactive approach.

## Compliance

Safe2Drive is a member of the AFP (Association of Fleet Professionals), is UK GDPR compliant and has ISO 27001 accreditation plus Cyber Essentials Certified.

## Value added services

Checks are also available for: drivers outside DVLA jurisdiction, foreign licences, Northern Ireland licences, those outside the company car fleet and grey fleet checks for privately owned vehicles used on company business.

# Benefits of Safe2Drive services

- Instant confirmation that the driver has the correct licence categories for the job, optimising employee onboarding.
- Improved driver compliance, reducing road risk for all drivers within your fleet, as all driving offences (past and present) and number of endorsements are reported.
- Confirmation that drivers are legally allowed to drive in their particular role, improving compliance and enabling the effective insurance cover.
- Ability to verify the driver's legal name, address and date of birth.
- Highlight expired photocard and also drivers who have passed their test within the last two years.
- Being proactively informed of any new offences following the most recent check.
- Identification of driver restrictions (e.g. eye correction etc), ensures Duty of Care and effective job allocation.

## How do I access this service?
