Does the product include optional covers?

There are no set mandatory covers on this product – all covers are selectable.

How should this product be distributed?

This product should be sold with the active assistance and guidance of an Insurance Intermediary to select the appropriate level of cover. This product should not be sold directly to customers without this assistance.

What should distributors do to ensure the product provides fair value to the end customer?

To ensure the customer receives fair value for this product, care must be taken to ensure no duplicate cover exists or is caused by an add-on where that cover is already provided by the policy. Commission, fees, or charges passed onto the customer must be proportionate to the service provided and provide fair value. The distributors should ensure that the sums insured are adequate for the risk insured.

Vulnerable Customers

Customers with characteristics of vulnerability are within the target market. Vulnerable customer objectives are consistent with those of non-vulnerable customers and can benefit from the product in the same way. Vulnerable customers have different characteristics to non-vulnerable customers and may require additional support.

Our colleagues are trained and equipped to identify and support vulnerable customers. We closely monitor vulnerable customer outcomes to ensure our products and services continue to meet their needs and deliver good outcomes.
